Investors should ensure that they are fully informed about the sub-funds, classes and sub-classes of shares that are authorized to be marketed in their country of residence and the constraints applicable in each of these countries. ETF: Exchange Traded Fund

- ETFs mentioned in this document are compliant with the European Council Directive 2009/65/EC (UCITS IV), as amended by the Directive 2014/91.
- The sub-funds shares with ISINs starting with "FR" belong to SICAV or FCP operating under the French law, those starting with "LU" are part of a SICAV operating under Luxembourg law, and those starting with "IE" are part of an ICAV operating under the laws of Ireland.
- The share is registered in this country for Professional Investors only.
- Investors are exposed to the currency risk when investing in an ETF that has a trading currency different from their local currency and/or different from the underlying index and/or if the underlying index includes securities labelled in different currencies from the ETF one.
- SFDR: Sustainable Finance Disclosures Regulation. Regulation 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector. Article 9 - products with sustainable investment objective; Article 8 - products promoting environmental or social characteristics; Article 6 - products not classified Art 9 nor Art 8.
- Other Ongoing Costs PRIIPS (Management fees & Other Costs). Source: BNP Paribas Asset Management. It is advisable to refer to the most recent prospectus for obtaining current management fees. Subscription and redemption fees indicate a maximum for subscriptions / redemptions in cash on the primary market for authorised participants. In some cases, you may pay less. The investor can get from his advisor or financial intermediary the actual amount of subscription and redemption fees. Conditions applicable to purchases and sales on the secondary market are those applicable to this market and of your intermediary. Redemption or subscription fees should not be applied to you. Intermediation fees you may pay depend on the intermediary (execution, custody...).
- The Summary Risk Indicator is determined on a scale from 1 to 7 (7 being the highest risk level). It is subject to a periodical computation and can consequently change over time. We invite you to consult regularly the KID.

 The index funds available for the concerned index do not have the same features (ISIN code, Bloomberg ticker, OCR...) as the ETF share classes.

-  French SRI Label
-  Towards Sustainability Label
-  FNG Label

The SRI label supported by the French Authorities has been introduced in 2016, it encourages public investment in funds that are compliant with Environmental, Social, and Governance (ESG) criteria. For more information - visit the site: <https://www.lelabelisr.fr>  
 TS Label awarded in Brussels by the Central Labeling Agency, valid until 30.06.2026. For more information on this label - visit the site: <https://towardsustainability.be/the-label/quality-standard>  
 Obtaining this label by the sub-fund does not mean that it meets your own sustainability objectives. For more information on this matter - visit the site: <https://www.fsma.be/en/sustainable-finance>  
 Mutual funds with the FNG-Label meet the quality standard developed by Forum Nachhaltige Geldanlagen e.V. (FNG) for sustainable investments in the German-speaking countries. Successfully certified funds pursue a stringent and transparent sustainability approach, the application of which has been checked by the independent Auditor University of Hamburg. For more information - visit the site: [www.fng-siegel.org](http://www.fng-siegel.org)  
 Trademark, copyright, and other intellectual property rights are and remain the property of their respective owners.

**The investments in the funds are subject to market fluctuations and the risks inherent in investments in securities. The value of investments and the income they generate may go down as well as up and it is possible that investors will not recover their initial outlay, the fund described being in risk of capital loss. For a complete description and definition of risks, please consult the last available prospectus and KID of the funds that can be downloaded free of charges from our website: [www.bnpparibas-am.com/en/](http://www.bnpparibas-am.com/en/)**

# BNP Paribas Easy: an index range focused on ESG

BNP Paribas Easy is BNPP AM's range of ETF and index funds covering several areas of expertise: ESG<sup>1</sup> thematic indices, SRI<sup>2</sup> equity and bond indices and ESG equity, bond and Smart beta indices.

## Passive ETF Range

## ESG indices

### Equity Min TE

A range of ETFs replicating equity indices across different geographical areas (world, Europe, eurozone, the US, China, Japan, Pacific ex-Japan and emerging markets), taking into account ESG criteria and minimising the deviation (tracking error) from the non-ESG benchmark.

### Bonds **Best-effort**

A range of ETFs replicating ESG bond indices for the eurozone and emerging markets, whose methodology consists in excluding certain sectors and selecting government bonds of different maturities and credit profiles, using a best effort approach.

### Smart Beta

A range of factor-based ETFs that replicate academic-based ESG strategy indices calculated and published by Solactive AG. This range uses five factors: growth, low volatility, value, quality and dividend.

## SRI indices

### Equity **PAB** **Best-in-class**

A range of ETFs replicating SRI equity indices across different geographical areas: the eurozone, Europe, world, the US, Japan and emerging markets, whose methodology applies best-in-class ESG selectivity approach while excluding certain sectors.

### Bonds **Best-in-universe**

A range of ETFs replicating SRI bond indices denominated in EUR and USD, whose methodology consists in choosing bonds of different maturities and credit profiles (investment-grade and high-yield) that are not exposed to certain sectors (such as fossil fuels) while using ESG selectivity approach.

## Thematic funds related to ESG indices

### Low Carbon **PAB**

A range of ETFs that replicate low-carbon equity indices across Europe and world, whose methodology consists of selecting companies according to ESG criteria and based on the opportunities and risks associated with the climate transition.

### Listed Real Estate **CTB**

A range of ETFs that replicate equity indices made up of listed real estate companies selected for their environmental practices in different geographical areas: Europe, eurozone and world.

### Biodiversity **PAB** **Best-in-class**

An ETF that replicates a eurozone equity index meeting the EU PAB criteria and composed of values whose negative impact on biodiversity is reduced compared to companies in the same sector.

### Circular Economy

An ETF that replicates an equity index composed of 50 international companies translating circular economy principles into business practices, best placed to grasp the benefits deriving from the adoption of circular economy models, and classified according to five areas: circular supplies, resource recovery, product life extension, sharing platforms, and product as a service.

### Blue Economy

An ETF that replicates an equity index made up of 50 international companies participating in the sustainable use of ocean resources and classified into five areas: coastal livelihood, energy and resources, fish and seafood, pollution reduction and shipping lanes.

### ESG Infrastructure

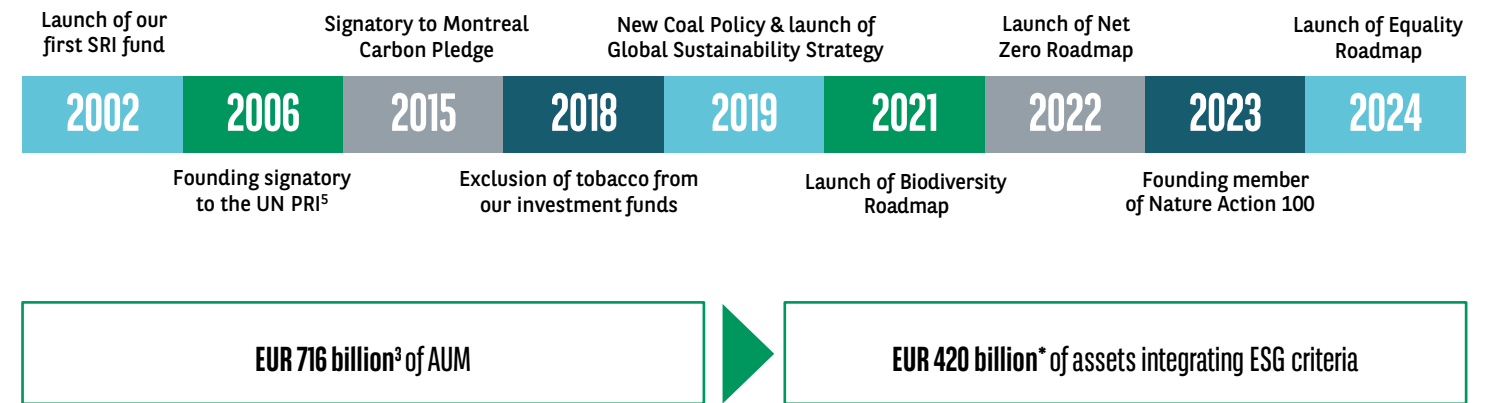

An ETF that replicates an equity index made up of 100 international companies considered to be best placed to support the development and maintenance of sustainable infrastructure, and classified into six clusters: communication, energy, transportation, waste management, water and social infrastructure.

### Hydrogen

An ETF that replicates an equity index made up of 40 international companies selected from the sustainable hydrogen sector and the renewable energy sector used for its production.

# Sustainable approach at the heart of BNPP AM's strategy

BNP Paribas Asset Management, BNP Paribas' asset management business, offers a full range of active, passive and quantitative investment solutions across a broad spectrum of asset classes and geographical areas. Since 2002, BNPP AM has been committed to sustainable investment and has continued to strengthen its ambition, investment philosophy and management processes for a low-carbon, environmentally responsible and inclusive economy.

## Active ETF Range

## ESG Enhanced

A range of innovative ETFs combining a traditional indexing approach and an active application of BNPP AM's proprietary ESG<sup>4</sup> methodology.

The funds are designed to deliver a performance aligned with that of the broad index (no alpha generation target) and can quickly adjust to new regulations, labels criteria and controversies.

## Alpha Enhanced

A range which aims to combine the features of ETFs with a quantitative active strategy.

The funds are targeting alpha generation through diversified and balanced multi-factors exposure while keeping a relatively low tracking error level due to advanced portfolio construction following the same risk profile as the benchmark.

## Our Awards

- European Pensions Awards 2024 - ETF Provider of the Year
- Sustainable Investment Awards 2025
- ETF Express European Awards 2024
- ESG Investing Awards 2023
- Mondo ETF Awards 2025
- Le Revenu - Trophées d'Or ETF 2025
- 2024 L'Agéfi European ETF Awards
- Xenix 2025 - ETF Awards France & Benelux
- Xenix ETF Awards 2023 Germany

1 Environment Social Governance.  
 2 SRI – socially responsible investment.  
 3 AUM – Assets under management as of 30.09.2025; \* as of 30.06.2025  
 4 ESG assessments are based on BNPP AM's proprietary methodology which integrates all 3 aspects of E, S & G. Prospectus and KID are leading  
 5 UN Principles for Responsible Investments.

## Glossary

### **PAB**

Paris Aligned Benchmark standards that aim to reduce carbon intensity by 50% relative to the initial investment universe and at least by 7% each next year.

### **CTB**

Climate Transition Benchmark standards that aim to reduce carbon intensity by 30% relative to the initial investment universe and at least by 7% each next year.

### **Best-in-class**

This approach involves selecting the companies with the best ESG rating within each sector of activity.

### **Best-in-universe**

This approach involves selecting companies with the best ESG rating within a given universe.

### **Best-effort**

This approach involves selecting companies that demonstrate an improvement and/or good prospects in their ESG practices and performance over time.

## Exercising voting rights

By investing on behalf of its clients, BNPP AM exercises its voting rights over all securities held in ETFs and index funds of the BNP Paribas Easy range. BNPP AM considers the promotion of good corporate governance practices to be an essential part of shareholder responsibility. Voting in general meetings is an important element of the dialogue with investee companies.

## No stock lending

Securities lending is the practice of loaning shares, or other securities held by the fund to other investors or firms. To avoid any additional counterparty risk, no such transaction is possible within the BNP Paribas Easy range.

## INVESTMENT RISKS

- Interest rate risk: The value of an investment may be affected by interest rate fluctuations. Interest rates may be influenced by several elements or events, such as monetary policy, the discount rate, inflation, etc.
- Credit risk: This is the risk that may derive from the rating downgrade of a bond issuer to which the sub funds are exposed, which may therefore cause the value of the investments to go down. Sub funds investing in high-yield bonds present a higher than average risk due to the greater fluctuation of their currency or the quality of the issuer.
- Counterparty risk: This risk relates to the quality of the counterparty with whom the management company does business, in particular for the settlement/delivery of financial instruments or the conclusion of financial forward contracts. The risk reflects the counterparty's ability to honour its commitments (payment, delivery, repayment, etc.).
- Liquidity risk: There is a risk that investments made in the sub funds may become illiquid due to an over-restricted market (often reflected by a very broad bid-ask spread or by substantial price movements), or if their "rating" declines or their economic situation deteriorates.
- Derivatives risk: the use of derivatives by the funds includes various risks. Those risks are (without limitation), the lack of secondary market liquidity under circumstances, valuations risks, the lack of standardization and regulation, the risk of leverage, the risk of counterparty.
- Risk linked to equity markets: the risks associated with investments in equities (and similar instruments) include significant fluctuations in prices, negative information about the issuer or market and the subordination of a company's equities to its bonds. The value of investments and the income they generate may go down as well as up and it is possible that investors will not recover their initial outlay.
- Environmental, Social and Governance (ESG) Investment Risk: The lack of common or harmonized definitions and labels integrating ESG and sustainability criteria at EU level may result in different approaches by managers when setting ESG objectives. This also means that it may be difficult to compare strategies integrating ESG and sustainability criteria to the extent that the selection and weightings applied to select investments may be based on metrics that may share the same name but have different underlying meanings. In evaluating a security based on the ESG and sustainability criteria, the Investment Manager may also use data sources provided by external ESG research providers. Given the evolving nature of ESG, these data sources may for the time being be incomplete, inaccurate or unavailable. Applying responsible business conduct standards in the investment process may lead to the exclusion of securities of certain issuers. Consequently, the Sub-Fund's performance may at times be better or worse than the performance of relatable funds that do not apply such standards.

## DISCLAIMER

BNP PARIBAS ASSET MANAGEMENT Europe, "the investment management company", is a simplified joint stock company with its registered office at 1 boulevard Haussmann 75009 Paris, France, RCS Paris 319 378 832, registered with the "Autorité des marchés financiers" under number GP 96002.

This material is issued and has been prepared by the investment management company.

This material is produced for information purposes only and does not constitute:

1. an offer to buy nor a solicitation to sell, nor shall it form the basis of or be relied upon in connection with any contract or commitment whatsoever or
2. investment advice.

This material makes reference to certain financial instruments authorised and regulated in their jurisdiction(s) of incorporation.

No action has been taken which would permit the public offering of the financial instrument(s) in any other jurisdiction, except as indicated in the most recent prospectus of the relevant financial instrument(s), or on the website (under heading "our funds"), where such action would be required, in particular, in the United States, to US persons (as such term is defined in Regulation S of the United States Securities Act of 1933). Prior to any subscription in a country in which such financial instrument(s) is/are registered, investors should verify any legal constraints or restrictions there may be in connection with the subscription, purchase, possession or sale of the financial instrument(s).

Investors considering subscribing to the financial instrument(s) should read carefully the most recent prospectus and Key Information Document (KID) and consult the financial instrument(s)' most recent financial reports.

These documents are available in the language of the country in which the financial instrument(s) is authorised for the distribution and/or in English as the case may be, on the following website, under heading «our funds»:  
<https://www.bnpparibas-am.com/>

Opinions included in this material constitute the judgement of the investment management company at the time specified and may be subject to change without notice. The investment management company is not obliged to update or alter the information or opinions contained within this material. Investors should consult their own legal and tax advisors in respect of legal, accounting, domicile and tax advice prior to investing in the financial instrument(s) in order to make an independent determination of the suitability and consequences of an investment therein, if permitted. Please note that different types of investments, if contained within this material, involve varying degrees of risk and there can be no assurance that any specific investment may either be suitable, appropriate or profitable for an investor's investment portfolio.

Given the economic and market risks, there can be no assurance that the financial instrument(s) will achieve its/their investment objectives. Returns may be affected by, amongst other things, investment strategies or objectives of the financial instrument(s) and material market and economic conditions, including interest rates, market terms and general market conditions. The different strategies applied to financial instruments may have a significant effect on the results presented in this material. Past performance is not a guide to future performance and the value of the investments in financial instrument(s) may go down as well as up. Investors may not get back the amount they originally invested.

The performance data, as applicable, reflected in this material, do not take into account the commissions, costs incurred on the issue and redemption and taxes.
