The Commission de Surveillance du Secteur Financier ("CSSF") is responsible for supervising the Product and BNPP AM Luxembourg.

Date of production of the KID: 29/02/2024

WHAT IS THIS PRODUCT?**Type**

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of BNP PARIBAS FLEXI I, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.

BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Fund is actively managed without reference to an index. The Fund seeks to increase the value of its assets over the medium term by investing primarily into European Structured Debt Securities such as Residential Mortgage Backed Securities (RMBS), Asset-Backed Securities (ABS) and Collateralised Loan Obligations (CLO). The Fund may also invest into any other type of international fixed income securities, money market instruments and derivatives. With respect to rated assets, the Fund may only invest in securities rated Aaa or AAA by at least one of the four major Rating Agencies (Moody's, Fitch, Standard & Poor's or DBRS), or whose credit quality is deemed equivalent by the manager on their respective purchase date. The Fund will not invest more than 30% of its net assets in any single type of Structured Debt Securities (as defined per the nature of the underlying assets) and no more than 30% of its net assets in Structured Debt Securities backed by underlying assets originated in any given country. In addition, the Fund may only invest 30% of its net assets in securities backed by debt issued in Spain, Greece, Portugal, Ireland or Italy (with 10% maximum for each of these countries) and up to 20% of its net assets in Dutch RMBS. Lastly, CLO securities may have maximum allocation of 40%, with a maximum of 10% for US CLOs. The Fund may use derivatives for hedging purpose or to achieve its investment objective. The Fund will invest in securities denominated in a currency of member countries of the OECD. After hedging, the Fund may have currency risk (other than EUR) of maximum 5% and investments in other funds will be limited to 10%. The Fund will emphasize investments in instruments with a maximum average expected repayment maturity (as measured by the Weighted Average Life) of 6 years (for CLO securities) or 5 years (for other Structured Debt Securities). The Fund's overall credit spread sensitivity is between 0 and 3 years and its interest rate sensitivity range is between -1 and +3 years.

Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the manager's decision making.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Intended retail investors

This Product is designed for investors who have some financial expertise and/or average knowledge to understand the Product but nevertheless may bear total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 1 year.

Practical Information

- Depository: BNP PARIBAS, Luxembourg Branch
- This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS FLEXI I. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.
- Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at <https://www.bnpparibas-am.com>.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?**Risk Indicator**

The risk indicator assumes you keep the Product for 1 year.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 2 out of 7, which is a low risk class. The risk category is justified by the investment mainly in interest rate instruments. The investor's attention is drawn to the fact that an increase in interest rates results in a decrease in the value of investments in bonds and debt instruments and more generally fixed income instruments.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

- Credit risk: the risk that the creditworthiness of an issuer may deteriorate or that it may default, potentially causing the value of the associated instruments to fall.
- Liquidity risk: this risk arises from the difficulty of selling a security at its fair value and within a reasonable period of time due to a lack of buyers.
- Operational risk: in the event of an operational breakdown within the management company, one of its representatives or the depository, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 1 year

Example Investment: EUR 10,000

If you exit after 1 year

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.	
Stress	What you might get back after costs	9,694.06 EUR
	Average return each year	-3.06%
Unfavourable	What you might get back after costs	9,694.06 EUR
	Average return each year	-3.06%
Moderate	What you might get back after costs	10,026.05 EUR
	Average return each year	0.26%
Favourable	What you might get back after costs	10,521.66 EUR
	Average return each year	5.22%

The below scenarios occurred for an investment using a suitable proxy.

The favorable scenario occurred for an investment between 2022 and 2023.

The moderate scenario occurred for an investment between 2015 and 2016.

The unfavorable scenario occurred for an investment between 2019 and 2020.

WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depository, would not be affected by this default.

In case of default of the depository, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depository from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

If you exit after 1 year

Total Cost	37.94 EUR
Cost Impact (*)	0.38% each year

(*) This illustrates the effect of costs over a holding period of less than one year. This percentage cannot be directly compared to the cost impact figures provided for other Products.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs	We do not charge an entry cost.	0 EUR
Exit costs	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	0.19% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2023.	19 EUR
Transaction costs	0.18% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	18.94 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR
In case of conversion, no fee will be charged.		

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?**Recommended holding period ("RHP"): 1 year.**

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM Luxembourg, as described on its website www.bnpparibas-am.lu (Footnote 'Complaints management policy'), by sending an email to amlu.complaints@bnpparibas.com or by writing to BNPP AM Luxembourg - Client Services - 10, rue Edward Steichen L-2540 Luxembourg.
