BNPP AM is authorized in France under number GP96002 and regulated by the AMF.

Date of production of the KID: 01/03/2024

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is established as an FCP (fonds commun de placement mutual investment fund) subject to the provisions of the French Monetary and Financial Code and UCITS Directive 2009/65/EC as amended.

Term

The Product was initially established for a term of 99 years.

BNPP AM is entitled to dissolve the Product unilaterally. Dissolution may also take place in the event of a merger, total redemption of the units or when the net assets of the Product are less than the minimum regulatory amount.

Objectives

Management objective: Classified as a French equities fund, the Product aims, over a minimum investment horizon of five years, to outperform, net of fees, the French mid-cap securities market, represented by the following composite indicator: 50% CAC Next 20 + 50% CAC Mid 60, incorporating criteria for good governance and sustainable development. The indices are calculated with net dividends reinvested.

Key characteristics of the Fund: The investment strategy is based on active management that aims to select shares using a systematic and disciplined approach that combines fundamental research and quantitative analysis.

The Product is managed in line with a socially responsible investment (SRI) strategy and has the SRI label.

The non-financial analysis consists of integrating an SRI approach when selecting securities.

In order to appear in the portfolio, companies must comply with the following environmental, social and governance (ESG) standards: compliance with sector-specific policies on controversial activities and exclusion of companies that contravene any of the Ten Principles of the United Nations Global Compact and/or the OECD Guidelines for Multinational Enterprises. The Product follows a significant engagement approach in regard to integrating ESG criteria into management.

As regards the analysis of ESG practices, companies are evaluated by a specialised team based on non-exhaustive ESG criteria, i.e. environmental (including global warming and combating greenhouse gas emissions), social (including managing employment and restructuring, workplace accidents, training policy and remuneration), and governance (including the independence of Boards of Directors from their senior management and respect for the rights of minority shareholders).

The Product invests at least 90% of its net assets in securities that have been analysed in terms of their ESG criteria by a dedicated team of ESG analysts from the management company. Following this analysis, the Product applies the rating improvement approach, whereby the average ESG rating of the portfolio is higher than that of the composite index (50% CAC Next 20 + 50% CAC Mid 60), after eliminating at least 20% of the lowest-rated securities from this index. The management team may select securities outside its benchmark index. However, it ensures that the benchmark index is a relevant comparison for the Product's ESG rating.

Main methodological limitation of the non-financial strategy: Some companies appearing in the portfolio may have ESG practices that can be improved and/or may be exposed to certain sectors in which environmental, social or governance issues remain significant.

The Product is primarily invested in mid-cap securities of companies from all sectors traded on the French market. The degree of the Product's exposure to equity markets is between 90% and 100% of the net assets. It is eligible for the French Equity Savings Plan (Plan d'Épargne en Actions - PEA) and must therefore ensure that at least 75% of its assets are comprised of securities eligible for the PEA.

The market capitalisation of these securities is greater than 70% of the lowest capitalisation and lower than 130% of the highest capitalisation of the CAC Next 20 and CAC Mid 60 indices. Information on these indices is available at www.euronext.com.

The manager may use derivatives traded on French and/or foreign regulated and/or over-the-counter futures markets to hedge the portfolio against the risks associated with equities and equivalent securities and/or indices and/or to seek further exposure to the equities market in order to achieve its management objective.

Redemption requests are cleared through BNP Paribas from Monday to Friday at 1 pm. They are executed on the basis of the next net asset value dated the same day and are settled within five days of the calculation of the net asset value.

Other information:

This Product may not be appropriate for investors who plan to withdraw their money within five years.

For more details, please refer to this Product's prospectus.

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of and/or income from capital. Potential investors should have an investment horizon of at least 5 years. The product is not marketed to US investors that fall within the definition of restricted persons, as summarised in the Product's prospectus.

They can be sent to you free of charge upon written request to: BNP PARIBAS ASSET MANAGEMENT Europe - Service Client - TSA 90007 - 92729 Nanterre CEDEX, France.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 5 out of 7, which is a medium-high risk class. Investment in equity instruments justifies the risk category. These are subject to significant price fluctuations, which are often amplified in the short term. In other words, the potential losses related to the Product's future results are medium to high, and if the market situation deteriorates, it is likely that the value of your investment will be affected when you request the redemption of your units.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years

Example Investment: EUR 10,000

If you exit after 1 year

If you exit after 5 years

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	5,271.93 EUR	1,085.77 EUR
	Average return each year	-47.28%	-35.86%
Unfavourable	What you might get back after costs	7,741.09 EUR	8,234.31 EUR
	Average return each year	-22.59%	-3.81%
Moderate	What you might get back after costs	10,200 EUR	12,104.7 EUR
	Average return each year	2.00%	3.89%
Favourable	What you might get back after costs	13,125.37 EUR	15,359.63 EUR
	Average return each year	31.25%	8.96%

The favorable scenario occurred for an investment between 2014 and 2019.

The moderate scenario occurred for an investment between 2015 and 2020.

The unfavorable scenario occurred for an investment between 2021 and 2024.

WHAT HAPPENS IF BNPP AM IS UNABLE TO PAY OUT?

The Product is a fund of jointly owned financial instruments and deposits separate from BNPP AM.

In the event that BNPP AM defaults, the assets of the Product held by the depositary will not be affected.

However, in the event that the depositary defaults, the Product's risk of financial loss is mitigated by the legal segregation of the depositary's assets from those of the Product.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

■ in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.

■ EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total Cost	381.3 EUR	1,361.87 EUR
Annual Cost Impact (*)	3.85%	2.35% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.24% before costs and 3.89% after costs. We may share the costs with the person selling you the product to cover the services they provide to you. This person will inform you of the amount.

Composition of costs

One-off entry or exit costs		If you exit after 1 year
Entry costs	Up to 2.00% of the amount you pay in when entering this investment.	Up to 200 EUR (*)
Exit costs	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	1.49% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2023.	146.02 EUR
Transaction costs	0.35% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount will vary depending on how much we buy and sell.	35.28 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

(*) Entry costs additional details: from 0 to 29.999 EUR : 2.00%. From 30.000 to 149.999 EUR : 1.00%. From 150.000 to 799.999 EUR : 0.75%. From 800.000 EUR : 0.50%

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?**Recommended holding period ("RHP"): 5 years.**

The RHP has been defined and based on the risk and reward profile of the Product.

The reimbursements modalities are detailed in the prospectus of the fund.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

HOW CAN I COMPLAIN?

For any complaints, investors are invited to contact their usual advisor at the establishment that advised them on the Product. They can also contact BNPP AM via its website www.bnpparibas-am.fr (Complaints Management Policy in the footer at the bottom of the page), by sending a registered letter with acknowledgement of receipt to BNP PARIBAS ASSET MANAGEMENT Europe - Client Service - TSA 90007 - 92729 Nanterre CEDEX, France, France, or by sending an email to amfr.reclamations@bnpparibas.com.
