#### BI CUTS BY 25 BPS!

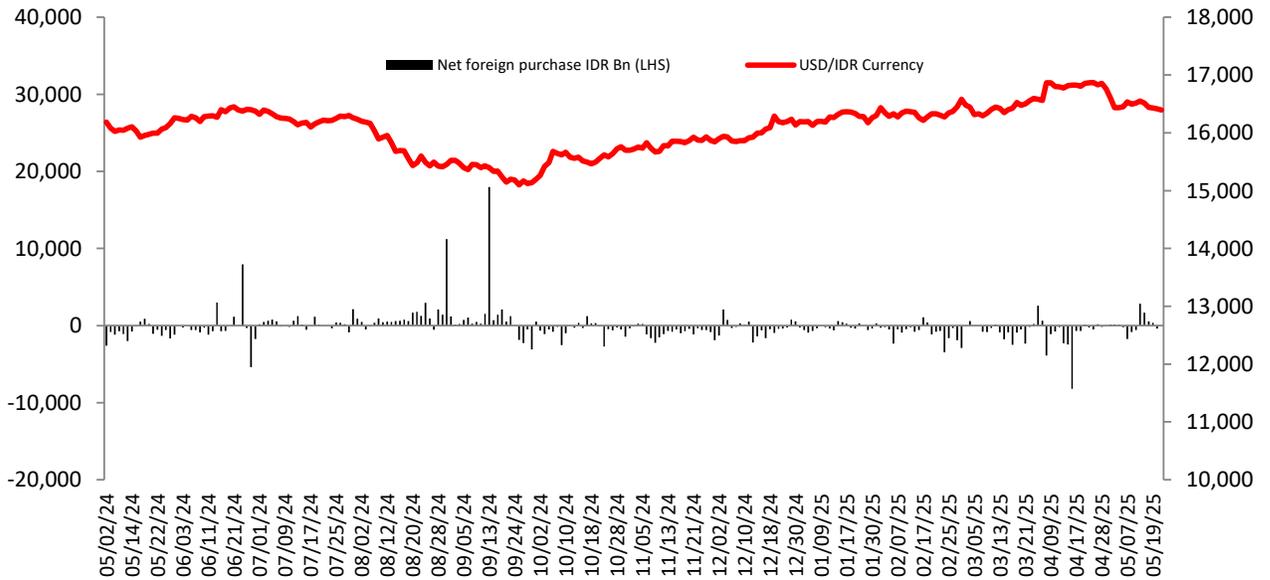

Indonesia bond market ended the day relatively flat. We see some support from the banks and local players that trying to collect front end and middle series while we did see some selling action came in despite the volume remained thin. Yield wise, there is no significant movement and yield managed to close the day lower around 1 to 2bps compare to yesterday's closing level. In the middle of the day, Bank Indonesia announced that the BI cuts benchmark key rate 25bps to 5.50% as expected.
