Information

BNP Paribas Flexi I (the “Company”) is an open-ended investment company (*société d’investissement à capital variable* - abbreviated to SICAV), incorporated on 4 July 2006 under the name of “FORTIS SOLUTIONS” for an unlimited duration in conformity with the provisions of Part I of the Luxembourg Law of 20 December 2002, relating to Undertakings for Collective Investment. It was renamed BNP Paribas Flexi I on 13 September 2010.

The Company is currently governed by the provisions of Part I of the Law of 17 December 2010 governing undertakings for collective investment as amended, as well as by Directive 2009/65 (UCITS IV) and also Directive 2014/91 (UCITS V).

The Articles of Association have been modified at various times, most recently at the Extraordinary General Meeting held on 22 April 2016, with effect on 25 April 2016 published in the *Mémorial, Recueil Spécial des Sociétés et Associations* on 19 July 2016.

The latest version of the Articles of Association has been filed with the Trade and Companies Registrar of the District Court of Luxembourg, where any interested party may consult it and obtain a copy.

The Company is registered in the Luxembourg Trade Register under the number B 117 580.

Net asset values are calculated daily on each full bank business day in Luxembourg for the sub-funds Bond Emerging Investment Grade (formerly Bond World Emerging Investment Grade) and Flexible Convertible Bond unless 50% or more of the underlying assets cannot be valued.

Net asset values are calculated daily on each day on which banks are open for business in Luxembourg and France for the sub-funds ABS Europe AAA, ABS Europe IG and ABS Opportunities, unless 50% or more of the underlying assets cannot be valued.

Net asset values are calculated daily on each day on which banks are open for business in Luxembourg for the sub-fund Bond Nordic Investment Grade unless the calculated net asset values of the Master (ALFRED BERG Nordic Investment Grade) cannot be calculated.

Net asset values are calculated daily on each day on which banks are open for business in Luxembourg for the sub-fund Commodities, unless one of the reference commodity markets in the US and the UK (markets from the CME group, Intercontinental Exchange, London Metal Exchange) is closed.

Each day of the week on which banks are open for business in Luxembourg for the sub-fund Fossil Fuel Free Nordic High Yield, there is a corresponding NAV which is dated the same day unless the net asset value of the Master (ALFRED BERG Nordic High Yield ESG) is not calculated.

Net asset values are calculated daily on each day on which banks are open for business in Luxembourg for the sub-fund Lyra. If this day is a bank holiday, the valuation date will be calculated the following business day.

Net asset values are calculated daily on each day on which banks are open for business in Luxembourg for the sub-fund Multi-Asset Booster.

Net asset values are calculated daily on each day on which banks are open for business in Luxembourg for the sub-fund ESG Track Emu Government Bond 1-10 Years (formerly Track Emu Government Bond 1-10 Years). There will be no NAV calculation for the days on which the stock exchange is not open or is expected to close earlier on markets that provide listing data for components representing a substantial part of the index (over 10%), with the exception of December 31st of each year, unless otherwise decided by the Board of Directors.

Net asset values are calculated daily on each day on which banks are open for business in Luxembourg and on which US bond markets are open for the sub-fund US Mortgage, unless 50% or more of the underlying assets cannot be valued.

As to Net Asset Values and Dividends, the Company publishes the legally required information in the Grand Duchy of Luxembourg and in all other countries where the shares are publicly offered.

This information is also available on the website: www.bnpparibas-am.com.

The Articles of Association, the Prospectus, the KIID and periodic reports may be consulted at the Company’s registered office and at the establishments responsible for the Company’s financial service. Copies of the Articles of Association and the annual and interim reports are available upon request.

Except for the newspaper publications required by Law, the official media going forward to obtain any notice to shareholders will be our website www.bnpparibas-am.com.

The Documents and information are also available on the website: www.bnpparibas-am.com.

Notes to the financial statements

Notes to the financial statements at 31/12/2022

Note 1 - General Information

Events that occurred during the financial period ended 31 December 2022

Since 1 July 2022, the Company has carried out the following operations:

- a) Change of name of sub-fund:

Sub-fund	Date	Event
Bond World Emerging Investment Grade	26 August 2022	The sub-fund has been renamed “Bond Emerging Investment Grade”
Track Emu Government Bond 1-10 Years	26 August 2022	The sub-fund has been renamed “ESG Track Emu Government Bond 1-10 Years”

- b) Master-feeder structures

The following sub-funds are involved in a master-feeder structure:

Master sub-fund	Feeder sub-fund
ALFRED BERG Nordic Investment Grade	BNP Paribas Flex I Bond Nordic Investment Grade
ALFRED BERG Nordic High Yield ESG	BNP Paribas Flex I Fossil Fuel Free Nordic High Yield

The information regarding the description of the master-feeder structures, the investment objective and policy of the Master UCITS are detailed in the prospectus of the Company.

The audited financial statements and the prospectus of the Master UCITS and Feeder UCITS are available on www.bnpparibas-am.com and on www.alfredberg.com.

Note 2 - Principal accounting methods

- a) *Presentation of the financial statements*

The financial statements of the Company are presented in accordance with the regulations in force in Luxembourg governing collective investment undertakings.

The statement of operations and changes in net assets covers the financial period from 1 July 2022 to 31 December 2022.

- b) *Valuation of the securities portfolio*

The valuation of all securities listed on a stock exchange or any other regulated market, which functions regularly, is recognised and accessible to the public, is based on the last known closing price on the Valuation Day, and, if the securities concerned are traded on several markets, on the basis of the last known closing price on the major market on which they are traded; if this price is not a true reflection, the valuation shall be based on the probable sale price estimated by the Board of Directors in a prudent and bona fide manner.

Unlisted securities or securities not traded on a stock exchange or another regulated market which functions in a regular manner, is recognised and accessible to the public, shall be valued on the basis of the probable sale price estimated in a prudent and bona fide manner by a qualified professional appointed for this purpose by the Board of Directors.

If permitted by market practice, liquid assets, money market instruments and all other instruments may be valued at their nominal value plus accrued interest or according to the linear amortisation method. Any decision to value the assets in the portfolio using the linear amortisation method must be approved by the Board of Directors, which will record the reasons for such a decision. The Board of Directors will put in place appropriate checks and controls concerning the valuation of the instruments.

- c) *Net income realised on securities portfolio*

The net realised result on investment securities is calculated on the basis of the average cost of the securities sold.

Notes to the financial statements at 31/12/2022

d) Conversion of foreign currencies

The accounts of each sub-fund are kept in the currency in which its respective net asset value is expressed.

The purchase price of securities purchased in a currency other than that of the sub-fund is converted into the currency of the sub-fund on the basis of the exchange rates prevailing on the date of purchase of the securities.

The value of all assets and liabilities denominated in a currency other than the reference currency of the relevant sub-fund is determined by taking into account the rate of exchange prevailing at the time of the determination of the Net Asset Value. The income and expenses denominated in a currency other than the reference currency of the relevant sub-fund are determined by taking into account the rate of exchange prevailing on the transaction date. Realised exchange gains/losses are included in the “Statement of operations and changes in net assets” under “Net realised result on financial instruments”.

e) Valuation of forward foreign exchange contracts

Unexpired forward foreign exchange contracts are valued on the basis of the forward exchange rates applicable on the valuation date or the closing date, and the resulting unrealised profits or losses are accounted for.

f) Valuation of futures contracts

Unexpired futures contracts are valued at the last price known on the valuation date or closing date and the resulting unrealised profits or losses are accounted for.

Margin accounts to guarantee the liabilities on futures contracts are included in the “Cash at banks and time deposits” account in the Statement of net assets.

g) Valuation of options

The liquidation value of options traded on stock markets is based on the closing prices published by the stock markets on which the Company placed the contracts in question. The liquidation value of options not traded on stock markets is determined in accordance with the rules defined by the Board of Directors, in accordance with uniform criteria for each category of contract.

h) Valuation of swaps and contracts for difference

Interest Rate Swaps (IRS) shall be valued on the basis of the difference between the value of all future interest payable by the Company to its counterparty on the valuation date at the zero coupon swap rate corresponding to the maturity of these payments and the value of all future interest payable by the counterparty to the Company on the valuation date at the zero coupon swap rate corresponding to the maturity of these payments.

The internal valuation model for CDS (Credit Default Swaps) uses as inputs the rate curve of the CDS, the recovery rate and a discount rate (LIBOR or market Swap rate) to calculate the mark-to-market. This internal model also produces the rate curve for default probabilities. In order to establish the rate curve of the CDS, data from a certain number of counterparties active in the CDS market are used. The manager uses the valuation of the counterparties' CDS to compare them with the values obtained from the internal model. The starting point for the construction of the internal model is parity on the dates of the signing of the CDS, between the variable branch and the fixed branch of the CDS.

At any given point in time, the valuation of a CFD (Contract For Difference), an Equity Swap or a TRS (Total Return Swap) will reflect the difference between the latest known price of the underlying security and the valuation on the basis of which the initial agreement was concluded.

Inflation swaps are bilateral contracts which allow investors wishing to protect their investment to secure an inflation-linked return against an inflation index.

The inflation buyer (inflation receiver) pays a predetermined fixed or variable rate (less a spread). In exchange, the inflation buyer receives from the inflation seller (inflation payer) one or more inflation-related payments.

The main risk inherent in an inflation swap resides in its sensitivity to the interest rates and inflation: the inflation payer faces an inflation risk, i.e. changes likely to affect the inflation curve, and also an interest-rate related risk, in other words changes in the nominal yield curve. To evaluate inflation swaps, a “Forward Zero Coupon” curve is created and adjusted to take account of seasonal inflation, which permits calculation of the future inflation cash flows.

Notes to the financial statements at 31/12/2022

The unrealised appreciation/(depreciation) is disclosed in the Statement of net assets under “Net Unrealised gain on financial instruments” or “Net Unrealised loss on financial instruments”. Realised gains/(losses) and change in unrealised appreciation/(depreciation) as a result thereof are included in the Statement of operations and changes in net assets respectively under “Net realised result on Financial instruments” and “Movement on net unrealised gain/(loss) on Financial instruments”.

Margin accounts to guarantee the liabilities on swap contracts are included in the “Cash at banks and time deposits” account in the Statement of net assets.

i) ***Net asset value***

This semi-annual report is prepared on the basis of the last net asset value as at 30 December 2022.

j) ***Income on investments***

Dividends are recognized as income on the date they are declared and to the extent that the information in question can be obtained by the Company. Interests are accrued on a daily basis, net of withholding tax.

k) ***Position on mortgage-backed securities (to be announced)***

Mortgage-backed securities (to be announced) are subject to current commercial market practices in relation to securities guaranteed by mortgages, according to which a party will buy/sell a basket of mortgage loans for a fixed price at a later date.

At the time of the purchase/sale, the exact security is not known but its principal features are. Even if a price is agreed at the time of purchase/sale, the final face value will not yet have been fixed.

The “to-be-announced (“TBA”) Mortgage Backed Securities” positions, if any, are shown in the securities portfolio.

l) ***Other assets***

Other assets are mainly composed of receivables on sales of investments, receivables on subscriptions and accrued income receivable.

m) ***Anti-dilution levy***

For the sub-fund ESG Track EMU Government Bond 1-10 Years (formerly Track EMU Government Bond 1-10 Years), in addition to the entry, conversion or exit cost that may be charged to the investor, an anti-dilution levy may be paid by the investors to the sub-fund. Such amount covers transaction costs (including dealing costs relating to the acquisition, disposal or sale of portfolio’s assets, taxes and stamp duties) in order to ensure that all investors in a sub-fund are treated equitably and preserve the Net Asset Value of the relevant sub-fund (notably to accommodate large inflows and outflows) where the implementation of such mechanism is considered to be in the best interests of the sub-fund’s shareholders. This anti-dilution levy is charged to subscriptions, conversions and redemptions to ensure that the existing shareholders are not adversely affected by shareholders who are executing subscription, conversion or redemption orders.

In the event swing pricing mechanism or an anti-dilution levy mechanism is applied to a sub-fund, as decided by the Board of Directors, the other mechanism shall not be cumulatively applied to client orders.

Anti-dilution levy will not be charged for conversions within a same sub-fund.

For the sub-fund ESG Track EMU Government Bond 1-10 Years (formerly Track EMU Government Bond 1-10 Years), in addition to the maximum fees payable by the investors, an anti-dilution levy, as defined above, of maximum 0.05% for subscription or conversion in, and maximum 0.05% for redemption or conversion out may be applicable.

During the financial period ended 31 December 2022, the anti-dilution levy mechanism was not implemented for the sub-fund.

n) ***Swing Pricing***

A sub-fund may suffer reduction of the net asset value due to investors purchasing, selling and/or switching in and out of the sub-fund at a price that does not reflect the dealing costs associated with this sub-fund's portfolio trades undertaken by the Investment Manager to accommodate such cash inflows or outflows. In order to mitigate this effect and enhance the protection of existing shareholders, the mechanism known as “swing pricing” may be applied at the discretion of the Board of Directors of the Company.

Notes to the financial statements at 31/12/2022

Such Swing Pricing mechanism may be applied to a given sub-fund when its total capital activity (i.e. net amount of subscriptions and redemptions) exceeds a pre-determined threshold determined as a percentage of the net assets value for a given valuation day. The net asset value of the relevant sub-fund may then be adjusted by an amount (the “swing factor”) to compensate for the expected transaction costs resulting from the capital activity. The level of thresholds, if and when applicable, will be decided on the basis of certain parameters which may include the size of the sub-fund, the liquidity of the underlying market in which the respective sub-fund invests, the cash management of the respective sub-fund or the type of instruments that are used to manage the capital activity. The swing factor is, amongst others, based on the estimated transaction costs of the financial instruments in which the respective sub-fund may invest. Typically, such adjustment will increase the net asset value when there are net subscriptions into the sub-fund and decrease the net asset value when there are net redemptions. Swing pricing does not address the specific circumstances of each individual investor transaction. An ad hoc internal committee is in charge of the implementation and periodic review of the operational decisions associated with swing pricing. This committee is responsible for decisions relating to swing pricing and the ongoing approval of swing factors which form the basis of pre-determined standing instructions.

In principle, the swing factor will not exceed 1% of the respective sub-fund’s net asset value. Such limit could however be raised beyond this maximum level when necessary and on a temporary basis to protect the interests of shareholders, typically during exceptional market conditions, situations such as a global pandemic, a financial crisis, a geopolitical crisis, or any other exceptional event causing a severe deterioration of the liquidity.

The Swing Pricing mechanism may be applied across all sub-funds of the Company.

During the financial period ended 31 December 2022, no sub-funds have applied the Swing Pricing mechanism.

Note 3 - Management fees (maximum per annum)

Management fees are calculated and deducted monthly from the average net assets of a sub-fund, share category, or share class, are paid to the Management Company and serve to cover remuneration of the asset managers and also distributors in connection with the marketing of the Company's stock.

The management fees applicable to the “Classic” category are applicable to all share sub-categories and classes with the word “Classic” in their denomination.

The management fees applicable to the “I” category are also applicable to all share sub-categories and classes with the word “I” in their denomination.

The management fees applicable to the “Privilege” category are also applicable to all share sub-categories and classes with the word “Privilege” in their denomination.

No management fee is applied to the “X” class.

Note 4 - Performance fees

Performance fees are accrued when the difference between the annual performance of the sub-funds/categories/classes as stated below (i.e. over the accounting year) and the hurdle rate (this can be a reference index performance, a fixed rate or another reference) is positive. This fee is payable to the Management Company. The performance fee is calculated daily and provision will be adjusted on each valuation day during the financial year with the application of the "high water mark with hurdle rate" method. Hurdle rate means the performance of a reference index (or other references) as specified at the level of the sub-fund/category/class whereas high water mark means the highest NAV of the sub-fund/category/class as at the end of any previous financial year on which performance fees becomes payable to the Management Company, after deducting any performance fee. Performance fee is accrued if the performance of the sub-fund/category/class exceeds the hurdle rate and the high water mark.

For the sub-fund Lyra, the net asset value used for calculating the hurdle rate annual performance will always be equal to the last net asset value of the previous financial year, and will therefore be reset annually.

Furthermore, if shares are redeemed during the financial year, the fraction of the provisioned performance fee that corresponds to the total amount redeemed shall be granted definitively to the Management Company.

Notes to the financial statements at 31/12/2022

Note 6 - Taxes

The Company is subject in Luxembourg to an annual subscription tax (“*taxe d’abonnement*”) representing 0.05% of the value of the net assets. This rate is reduced to 0.01% for the following:

- a) sub-funds having the exclusive objective of collective investment in money market investments and deposits with credit institutions;
- b) sub-funds having the exclusive objective of collective investments with credit institutions;
- c) sub-funds, categories or classes reserved for Institutional Investors, Managers and UCIs.

The following are exempt from this “*taxe d’abonnement*”:

- a) the value of assets represented by units or shares in other UCIs, provided that these units, or shares have already been subject to the “*taxe d’abonnement*”;
- b) sub-funds, share categories and/or classes:
 - (i) whose securities are reserved for Institutional Investors, Managers, or UCIs and
 - (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and
 - (iii) whose weighted residual portfolio maturity does not exceed 90 days, and
 - (iv) that have obtained the highest possible rating from a recognised rating agency;
- c) sub-funds, share categories and/or classes reserved to:
 - (i) institutions for occupational retirement pension or similar investment vehicles, set up at the initiative of one or more employers for the benefit of their employees, and
 - (ii) companies having one or more employers investing funds to provide pension benefits to their employees;
- d) sub-funds whose main objective is investment in microfinance institutions;
- e) sub-funds, shares categories and/or classes:
 - (i) whose securities are listed or traded on at least one stock exchange or another regulated market operating regularly that is recognized and open to the public, and
 - (ii) whose exclusive object is to replicate the performance of one or several indices.

When due, the “*taxe d’abonnement*” is payable quarterly on the basis of the associated net assets, and is calculated at the end of the quarter to which the tax relates is due.

In addition, the Company may be subject to foreign UCI’s tax in the country where the sub-fund is registered for distribution.

Note 7 - Share currencies

The net asset value per share is priced in the currency of the share class and not in the currency of the sub-fund in the section "Key figures relating to the last 3 years".

Note 12 - Swaps

Credit Default Swaps

The Company has entered into credit default swaps agreements whereby it exchanges fixed income for income linked to changes in credit events, whether with respect to an index or a bond (see details in the tables below), and vice versa. These amounts are calculated and recognised at each calculation of the Net Asset Value; the amount of the unrealised capital gain is stated under "Net Unrealised gain on financial instruments" in the Statement of net assets, and the amount of net unrealised capital loss is given under "Net Unrealised loss on financial instruments" in the Statement of net assets.

Total Return Swap

A Total Return Swap (TRS) is an agreement to exchange the total performance of a bond or other underlying asset (share, index, etc.) for a benchmark rate plus a spread. The total performance includes the interest coupons, dividends and profits and losses on the underlying asset over the life of the agreement, depending on the type of underlying concerned. The risk in this type of agreement is linked to the fact that the benefit for each counterparty will depend on how the underlying asset performs over time, which is unknown at the time at which the agreement is entered into.

Note 18 - Transaction fees

Transaction fees incurred by the Company relating to purchase or sale of transferable securities, money market instruments, derivatives or other eligible assets, are mainly composed of standard fees, sundry fees on transaction, stamp fees, brokerage fees, custody fees, VAT fees, stock exchange fees, RTO (Reception and Transmission of Orders) fees and dilution levy.

In line with bond market practice, a bid-offer spread is applied when buying and selling these securities. Consequently, in any given transaction, there will be a difference between the purchase and sale prices quoted by the broker, which represents the broker's fee.

Note 19 - Distribution fees

These fees are calculated and deducted monthly from the average net assets of a sub-fund, share category, or share class, paid to the Management Company and serve to cover remuneration of the distributors, supplemental to the share of the management fee that they receive.

Distribution fees are applicable to the shares of class "N" in the sub-funds Commodities and Flexible Convertible Bond.

Note 20 - Information according to regulation on transparency of securities financing transactions (SFTR)

This collateral applies to all OTC activity of this Company. There is no way to distinguish it upon type of instrument it is related to.

Note 21 - Significant event

Since 24 February 2022, the Board of Directors has been very attentive to the consequences of the conflict between Russia and Ukraine and its impact on the energy shortage and food supplies in Europe. The Board of Directors closely monitors developments in terms of global outlook, market and financial risks in order to take all necessary measures in the interest of shareholders.
