BOND MARKET

LOWER

Indonesia bond market traded lower today following local currency weakened and the back of oil drop. We saw mixed trading throughout the day although bond market general direction was offerish. We witnessed several sporadic activity although the volume was limited. Overall, IDR bonds yield higher 10 – 15 bps compared to yesterday closing.

In the meantime, MoF held a Green Shoe Option today after yesterday's regular sukuk auction and received the incoming bids of IDR 6.33tn. MoF managed to absorb IDR 4.02tn and concentrated to 2Y and 4Y bonds series. The winners get the sukuk at the weighted average yields of the original auction yesterday.
