## WHAT IS THIS PRODUCT?

## Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of GENERALPART, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

## Term

This Product has no maturity date.

BNPP AM Luxembourg is not entitled to terminate the Product unilaterally. The board of directors of the SICAV has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

## Objectives

This Product is a fund of funds that is actively managed without reference to an index.

This Product invests in undertakings for collective investment (UCIs), which in turn invest in the bond and equity markets, in money market instruments and in alternative investments. Their selection is based on the strategic asset allocation recommendations defined by the manager. The manager may, on the basis of market conditions and their forecasts, deviate from the following neutral weighting: 45% equities, 50% bonds, 0% alternative investments, 5% liquidity and money market instruments, within the following limits: equities 20-70%, bonds 25-75%, alternative investments 0-25%, liquidity and money market instruments 0-30%.

This Product invests at least 90% of its assets in shares or accumulation units of UCIs that must have obtained the Belgian Towards Sustainability label. The remainder of the assets will be invested in shares or accumulation units of undertakings for collective investment that are classified as Article 8 or Article 9 within the meaning of the SFDR, while also taking into account sustainability risks and principal adverse impacts on sustainability factors as part of the investment process.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

## Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 4 years.

## Practical Information

■ Depositary: BNP PARIBAS, Luxembourg Branch

■ This key information document is prepared for the aforementioned share class and describes a sub-fund of GENERALPART. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.

■ Further information about the Product including the latest prospectus, Articles of Association, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM Luxembourg or online at <https://www.bnpparibas-am.com>.

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

## Risk Indicator

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 3 out of 7, which is a medium-low risk class. The risk category is justified by investment in various classes of assets, generally with a good balance between risky assets and less risky assets.

**Be aware of currency risk.** If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the Product not included in the summary risk indicator:

■ Credit risk: the risk that the creditworthiness of an issuer may deteriorate or that it may default, potentially causing the value of the associated instruments to fall.

**BNP PARIBAS**  
ASSET MANAGEMENT

The sustainable investor for a changing world

■ Operational risk: in the event of an operational breakdown within the management company, one of its representatives or the depositary, investors could face various disruptions (late payment, delivery etc.).

For additional details regarding the risks, please refer to the prospectus.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 4 years		If you exit after 1 year	If you exit after 4 years

## WHAT HAPPENS IF BNPP AM LUXEMBOURG IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM Luxembourg. In the event BNPP AM Luxembourg would default, the assets of the Product/SICAV, held by a depositary, would not be affected by this default.

In case of default of the depositary, the risk of financial loss of the Product/SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

## WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

■ in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.

■ EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
<b>Total Cost</b>	152.47 EUR	677.86 EUR
<b>Annual Cost Impact (*)</b>	1.52%	1.56% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.65% before costs and 2.09% after costs.

### Composition of costs
