

BNP Paribas Funds Disruptive Technology

- The fund seeks to increase the value of its assets over the medium term by investing primarily in innovative technology companies.
- The fund has significant exposure to a single sector and is likely to be subject to a greater concentration risk and higher volatility than a more diversified investment.
- The management company may at its discretion pay dividends out of the capital of the fund. Payment of dividends out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions involving payment of dividends out of the fund's capital may result in an immediate reduction of the net asset value per share.
- Investors should not solely rely on this document to make any investment decision. Please refer to the Hong Kong offering document for further information (including the risk factors) about the fund.

1. A go-anywhere approach to tap into the next big wave in technology

#IT: Information Technology *AI = artificial intelligence. IoT = Internet of Things. The 'multi-thematic' chart represents BNP Paribas Disruptive Funds Technology's exposure to the technology themes based on number of holdings with exposure to each theme. We have analysed each of our holdings and have identified the themes in which they participate across their business lines. Several companies participate in multiple of these key themes.

Risks: The value of the product and its dividends or coupons may rise or fall. These risk factors may cause you to lose some or all of your investment: market risk and extra-financial criteria investment risk. You are also exposed to concentration risk, emerging markets risk, equity risk, operational risk and custody risk, small cap, specialised or restricted sectors risk and specific risks related to investments in Mainland China including changes in PRC taxation risk and risks related to Stock Connect.

2. Aims to harness the rewards of emerging high growth companies

3. A smoother journey across market cycles

Diversity in theme, sector & market cap
Flexibility to adjust quickly
Focus on valuations

Result in smoother returns with lower drawdowns and lower volatility, compared to purer-play technology funds.
