

Key Investor Information

This document provides key information for investors in this sub-fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this sub-fund. You are advised to read it so that you can make an informed decision about whether to invest.

MULTI ASSET DIVERSIFIED, a Subfund of the SICAV THEAM QUANT-

Class "C EUR Capitalisation" - ISIN code LU1353183533

This Sub-Fund is managed by BNP PARIBAS ASSET MANAGEMENT France, part of the BNP Paribas Group

Objectives and Investment Policy

The Sub-Fund seeks to increase the value of its assets over the medium term by being exposed to a diversified long/short basket, the components of which are chosen using a systematic selection method based on in different asset classes (equities, fixed income, commodities and real estate). The exposure to the dynamic basket will however be adapted in order to keep the Sub-fund annual volatility at a target level of 10%.

In order to achieve its investment objective, the Sub-fund implements a systematic investment strategy (the Strategy) that takes long and short positions in different asset classes (equities, fixed income, commodities and real estate).

The Strategy benefits from a systematic risk control mechanism which aims at keeping its annual volatility at a target level of 10%. As a result, the Strategy may be exposed to monetary market.

The investment universe of the Strategy is composed of four asset classes: (i) equities, (ii) fixed income, (iii) commodities and (iv) real estate ((iii) and (iv) through indices). The process used to select the underlying from each asset class is based on criteria relating to geographical diversification, liquidity and transparency.

An automatic reallocation among the different underlying is carried out daily using an algorithm. Optimal diversification shall be sought via the application of a systematic risk/return optimization model based on historically observed levels (performance, volatility and correlation).

The Strategy will be implemented according to a Synthetic Replication Policy, through the conclusion of OTC derivatives. The Synthetic Replication Policy implies that the Sub-Fund does not actually hold the underlying securities of the index, but instead relies on OTC Derivatives to deliver the performance of the Strategy Index. The Sub-fund invests at all times at least 75% of its net assets in equities issued by companies that have their registered office in a Member State of the European Economic Area.

Investors are able to subscribe or redeem any day which the Paris, London, Frankfurt, New York, Tokyo and Hong Kong exchanges are open during the whole day (excluding Saturdays and Sundays and Luxembourg and French public holidays).

Subscription and redemption requests can be made to the administrative agent before 4.00 pm (CET) at the latest on the day before the relevant valuation day.

Administrative agent: BNP Paribas Securities Services, Luxembourg Branch, 60 avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.

Income are systematically reinvested.

Risk and Reward Profile

Lower risk Higher risk

← →

Typically lower reward Typically higher reward

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Past performance such as the information used to calculate the synthetic indicator may not be a reliable indication of the sub-fund's future risk profile.

- The risk category associated with this sub-fund is not guaranteed and may change over time.

- The lowest category does not mean "risk free".

The risk category is justified by the active investment in different asset classes while seeking to maintain the risk profile between predefined boundaries.

Significant risk(s) not taken into account in the indicator which could lead to a drop in the net asset value:

- **Counterparty Risk:** This risk is associated with the ability of a counterparty in an Over The Counter financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- **Risk linked to the use of forward financial instruments:** We use forward financial instruments traded over the counter in order to track the performance of the strategy. These instruments may involve a series of risks that could lead to adjustments or even a termination of the instrument, which could influence the net asset value.

Charges

The charges and fees paid are used to cover the costs of running the sub-fund, including the costs of marketing and distributing shares; these charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested.	
Charges taken from the UCITS over a year	
Ongoing charges	1.75% ^(*)
Charges taken from the UCITS under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

(*) The estimate of ongoing charges is based on the ongoing charges for the previous year, ended December 2018. This figure may vary from year to year. The ongoing charges exclude:

- intermediary charges, except in the case of entry and/or exit charges paid by the sub-fund when buying or selling units in another collective investment scheme. In case of conversion, the investors may be charged a maximum fee of 1.50%.

For more information about charges, please see the "Charges and fees" section of the sub-fund's prospectus, which is available online at www.bnpparibas-am.com.

Past Performance

- Past performance is not indicative of future performance;
- Performance is calculated net of management fees;
- The share class was launched on 19 May 2016;
- Past performance has been calculated in EUR.
- 04/2008 - 05/2016 : Following a corporate action on the 19/05/2016, the performances listed cover the simulated past performance and fees of the THEAM Quant Multi Asset Diversified [B, C].
