

## IMPACT, THEMATIC AND SOCIALLY RESPONSIBLE INVESTMENT

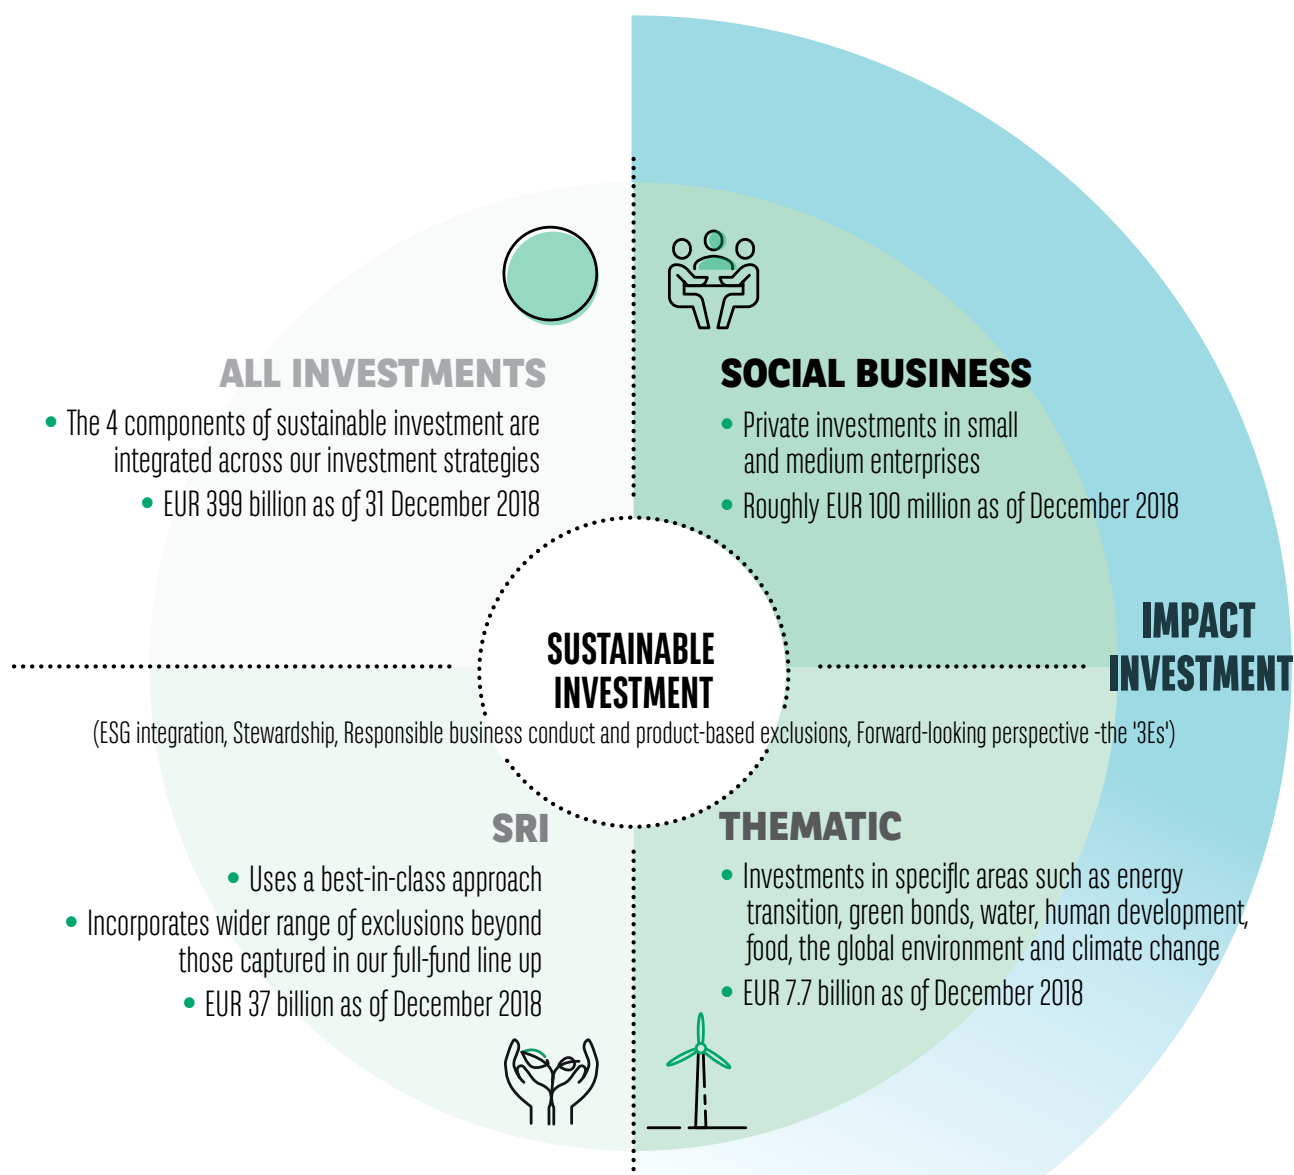

Through our direct impact investments, we have allocated approximately EUR 100 million to unlisted small and medium enterprises, which are creating economic value alongside direct social and environmental contributions. Our ambition is to continue to develop innovative thematic strategies which allow our clients to make investments that have measurable impacts.

We have a range of thematic funds which help clients pursue particular opportunities for more targeted sustainable investment. These funds (EUR 7.7 billion in assets of management as of 31 December 2018) are focused on areas such as the energy transition, green bonds, water, human development, food, the global environment and climate change. They enable investors to tap into specific trends or increase portfolio exposure to particular areas of the UN Sustainable Development Goals ("SDGs").

We also have a range of socially responsible investment (SRI) funds, which are systematically tilted towards more sustainable companies in each sector. These funds adopt all the elements of our sustainable investment approach, with two additional differences: i) they reflect a best-in-class methodology; ii) they incorporate a range of industry exclusions beyond those captured in our full fund line-up (such as alcohol). Our SRI fund range covers major asset classes, including global and European equity and credit, as well as sovereign debt.

Our various multifactor equity and fixed-income strategies adopt a best-in-class approach alongside broader ESG and carbon performance targets. In terms of passive investing, we have a range of innovative approaches – including having launched the first low-carbon ETF in 2008, and a zero carbon ETF for clients in 2019. We will continue to innovate in the development of ESG and climate aligned indices and ETFs.

For more information about our range of impact, thematic and SRI funds, see below.

BNP Paribas Asset Management is the source for all data in this document as of March 2019, unless otherwise specified.

Investments are subject to market fluctuations and other risks inherent in investments in securities.

The value of investments and the income they generate may go down as well as up and it is possible that investors will not recover their initial outlay.

BNP PARIBAS ASSET MANAGEMENT France, “the investment management company,” is a simplified joint stock company with its registered office at 1 boulevard Haussmann 75009 Paris, France, RCS Paris 319 378 832, registered with the “Autorité des marchés financiers” under number GP 96002.

This material is issued and has been prepared by the investment management company.

This material is produced for information purposes only and does not constitute:

1. an offer to buy nor a solicitation to sell, nor shall it form the basis of or be relied upon in connection with any contract or commitment whatsoever or
2. investment advice.

Opinions included in this material constitute the judgement of the investment management company at the time specified and may be subject to change without notice. The investment management company is not obliged to update or alter the information or opinions contained within this material. Investors should consult their own legal and tax advisors in respect of legal, accounting, domicile and tax advice prior to investing in the financial instrument(s) in order to make an independent determination of the suitability and consequences of an investment therein, if permitted. Please note that different types of investments, if contained within this material, involve varying degrees of risk and there can be no assurance that any specific investment may either be suitable, appropriate or profitable for an investor’s investment portfolio.

Given the economic and market risks, there can be no assurance that the financial instrument(s) will achieve its/their investment objectives. Returns may be affected by, amongst other things, investment strategies or objectives of the financial instrument(s) and material market and economic conditions, including interest rates, market terms and general market conditions. The different strategies applied to the financial instruments may have a significant effect on the results portrayed in this material.
