

# Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## AB US Equity Growth, a subfund of the SICAV AMSelect

Class "Classic Capitalisation" - ISIN code LU2310404988

This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group.

## Objectives and investment policy

The Fund is actively managed. The benchmark MSCI USA Growth is used for performance comparison only. The Fund is not benchmark constrained and its performance may deviate significantly from that of the benchmark.

The Fund seeks to increase the value of its assets over the medium term by investing mainly in shares of companies that are domiciled or do most of their business in the USA. The Fund may also invest a minor part of its assets in other shares, bonds and money market instruments. The Fund can use derivatives for hedging or efficient portfolio management. The Fund uses a combination of market and fundamental company analysis to select companies that appear to have above-average or stable growth prospects (growth-oriented bottom-up approach).

The investment team applies also BNP PARIBAS ASSET MANAGEMENT Responsible Business Conduct Policy, including norm-based screens, exclusion lists and stewardship activities when taking into account Environmental, Social and Governance (ESG) criteria in the investments of the Fund, as well as its own ESG integration methodologies.

An extra-financial strategy may comprise methodological limitations such as the environmental, social and governance (ESG) investing risk as defined by the asset manager.

Environmental, social and governance (ESG) criteria contribute to, but are not a determining factor in, the manager's decision making.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

## Risk and reward profile

1	2	3	4	5	6	7

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?  
The risk category is justified by the investment mainly in Stocks and Shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.
