

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

MSCI Europe Small Caps SRI S-Series PAB 5% Capped, a subfund of the SICAV BNP PARIBAS EASY

Class "UCITS ETF Capitalisation" - ISIN code LU1291101555

This Fund is managed by BNP PARIBAS ASSET MANAGEMENT Luxembourg, part of the BNP Paribas Group.

Objectives and investment policy

The Fund is an index-tracking passively managed fund.

The Fund seeks to replicate (with a maximum tracking error* of 1%) the performance of the MSCI Europe Small Caps SRI S-Series PAB 5% Capped (NTR) index (Bloomberg: MXEUSNE index) (the Index) by investing in the shares issued by companies included in the Index, respecting the Index's weightings (full replication), or in a sample of securities included in the Index (optimised replication), or by investing in a substitute basket, composed of, inter alia, shares of companies, debt securities or cash (synthetic replication). When investing in a basket of securities called substitute basket the performance is swapped with the performance of the index, generating counterparty risk.

When investing in a sample of shares, the Fund's tracking error may be higher.

The Index is composed of European small caps companies selected on the basis of a minimum Environmental, Social and Corporate Governance (ESG) criteria (environmental opportunity, pollution and waste, human capital, corporate governance, etc.) and based on their efforts to reduce their exposure to coal and unconventional fossil fuels. It implements a cap that limits a company's maximum weight within the Index to 5% on each rebalancing date. In addition, the index aims to comply with the Paris Aligned Benchmark (PAB) targets of reducing carbon intensity by at least 50% relative to the initial investment universe and achieving an additional decarbonisation target of 7% each year. As a result, those subject to significant violations of the UN Global Compact principles and those involved in severe ESG-related controversies are excluded from the Index.

The type of approach implemented here is Best-in-class (Best-in-class approach identifies leaders in each sector based on the best ESG practices, while avoiding those that present high levels of risk and do not comply with minimum ESG standards according to the Index administrator and its specialised partners). The extra-financial strategy of the Index, carried out at each step of the investment process, may comprise methodological limitations such as the risk related to ESG investment or the Index rebalancing.

Further information on the Index, its composition, calculation and rules for periodical review and rebalancing and on the general methodology behind the MSCI indices can be found on www.msci.com.

*The tracking error is a risk indicator that measures how closely a fund tracks the performance of its index.

Incomes are systematically reinvested.

Investors are able to redeem on a daily basis (on Luxembourg bank business days) as described in the prospectus.

Risk and reward profile

Lower risk Higher risk

← Potentially lower rewards Potentially higher rewards →

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- Historical data may not be reliable indication for the future.
- The risk category of a Fund is an indicator but not a target or a guarantee and may shift over time.
- The lowest category does not mean a risk-free investment.
- Why is the Fund in this specific category?
The risk category is justified by the investment mainly in Stocks and Shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
- The higher the risk, the longer the recommended investment horizon.

Other risks materially relevant to the Fund which are not adequately captured by the indicator are described below:

- **Counterparty Risk:** This risk is associated with the ability of a counterparty in an Over The Counter financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- **Operational and Custody Risk:** Some markets are less regulated than most of the international markets; hence, the services related to custody and liquidation for the subfund on such markets could be more risky.

For more information on risks, please see the risks section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.

Charges

The charges you pay are used to pay the Fund's running costs, including the costs of marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Primary market (authorised investors)

Maximum entry charge (not paid to the UCITS) 3.00%

Maximum exit charge (not paid to the UCITS) 3.00%

Secondary market (all investors)

Maximum entry charge (not paid to the UCITS) None

Maximum exit charge (not paid to the UCITS) None

Charges taken from the Fund over each year

Ongoing charges 0.25% (*)

Charges taken from the fund under specific conditions

Performance fee None

The entry and exit charges shown are maximum figures. In some cases you might pay less. You can find this out from your financial adviser.

(*) The **ongoing charges** figure is based on past expenses determined as of October 2021.

This figure may vary from year to year. It excludes:

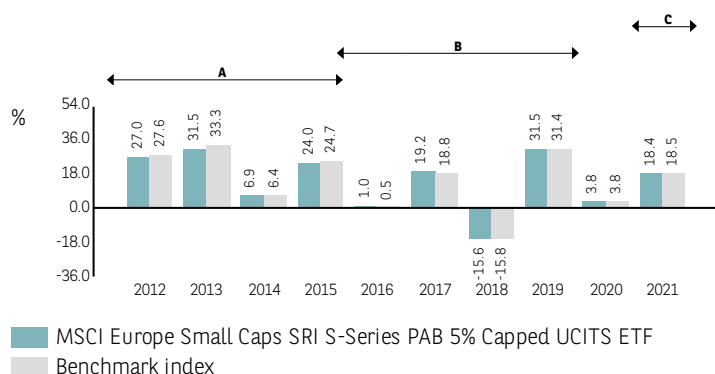

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

In addition, the investor's subscription, conversion or redemption order may be subject to an anti-dilution levy (maximum 0.35% for subscription or conversion in, and maximum 0.05% for redemption or conversion out) paid to the sub-fund in order to cover transaction costs.

Conversions not allowed.

For more information about charges, please see the "Fees and Costs" section of the Fund's prospectus, which is available at <http://www.bnpparibas-am.com>.

Past performance

- Performance figures are shown for shares classes, for which NAV was continuously calculated during the period from 1st January to 31st December.
- Past performance is not an indicator of future results.

- The ongoing charges of the Fund are included in the calculation of past performance. The entry/exit and conversion fees are excluded from the calculation of the past performance.

- The share class came into existence in 2016.

- Past performance has been calculated in EUR.

- Performance returns are based on the net asset value with distributable income reinvested.

- A:** 12/2010-02/2016: Following a corporate action on 19/02/2016, the performances listed are the simulated past performance and fees of the PARWORLD TRACK EUROPE SMALL CAP.
- B:** 10/2015-04/2020: During this period, the benchmark index was "MSCI Europe Small Caps ex Controversial Weapons NTR" and the denomination of the Funds was "MSCI EUROPE SMALL CAPS EX CW"
- C:** 04/2020 - 12/2021: During this period, the benchmark index was MSCI Europe Small Caps SRI S-Series 5% Capped (NTR).
