Date of production of the KID: 31/07/2026

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS). It is a sub-fund of THEAM QUANT-, an open-ended investment company (société d'investissement à capital variable "SICAV") governed by the provisions of Part I of the Luxembourg Law of 17 December 2010 (the "2010 Law") relating to undertakings for collective investment as well as by UCITS Directive 2009/65.

Term

This Product has no maturity date.
BNPP AM is not entitled to terminate the Product unilaterally. The board of directors has the authority to decide on the merger, split, liquidation or the closure of the sub-fund. Furthermore, the SICAV may be wound up by decision of an extraordinary general meeting of shareholders.

Objectives

The Sub-Fund seeks to increase the value of its assets over the medium term by being exposed to a dynamic basket of equities listed on European markets or operating on these markets, the components of which are chosen using a systematic selection method based on environmental, social and governance criteria (ESG) as well as a carbon emission and energy transition criteria. In addition, the Sub-fund benefits from a protection mechanism from the Guarantor whereby, on each Valuation Day, the Net Asset Value per Share of each Class is at least equal to ninety percent (90%) of the Reference Net Asset Value per Share of the Class as defined below. For each Class, the Reference Net Asset Value per Share of the Class is equal to the maximum between i) the Net Asset Value per Share of the Class on the last Valuation Day of the previous calendar year, and ii) the highest Net Asset Value per Share of the Class reached over the current calendar year. In order to achieve its investment objective, the Sub-fund implements a quantitative investment strategy (the Strategy) that takes long positions on a diversified basket composed of European markets equities selected on the basis of their ESG score, liquidity constraints, their low-carbon transition rating and their financial robustness, while not being involved in disputable activities or critical controversies and displaying low implication in coal, oil and gas activities and which are (i) either not continuing or (ii) phasing out practices that are widely considered as unsustainable. The application of ESG criteria, such as, but not limited to, energy efficiency, respect of human and workers' rights or board of directors independence, follows a best-in-class and selectivity approach which aims to select the leading companies in their sector by excluding at least 25% of the securities from the initial investment universe. Then, the allocation algorithm follows a thematic investing approach which assigns optimal weight to each share of the investment universe in a manner which seeks to maximize the low-carbon transition criteria of the resulting basket of shares, applied according to constraints such as a GHG intensity less than or equal to 50% of the GHG intensity of a European reference investment universe, of a year-on-year self-decarbonization of at least 7%, and is constructed to be aligned to the Paris Agreement goal to limit the increase in global average temperatures to well below 2°C above pre-industrial levels. The Strategy aims to maintain an ex-ante tracking error below 5% with regards to the Stoxx Europe 600 Net Return EUR (Bloomberg code: SXXR Index).
An extra-financial strategy may comprise methodological limitations such as the Risk related to ESG investment or the Risk related to a systematic allocation incorporating extra-financial criteria.
The Strategy is implemented via the use of the financial index BNP Paribas Equity Europe Climate Care Paris-Aligned NTR Index (the Strategy Index). It is based on a systematic model developed by BNP Paribas and is rebalanced quarterly using a specific algorithm. The rebalancing of the Strategy Index does not involve any cost for the Strategy Index. Further information on such index, its composition, calculation and rules for monitoring and periodic rebalancing, can be found at https://docfinder.bnpparibas-am.com/api/files/dce4be0a-f58f-4a1c-8939-e8f5bac0b9cd.
The protection mechanism associated to each Class consists in generating variable exposure to the performance of the Strategy and to cash or Money Market Instruments on a basis at least equal to the level of protection. Exposure to the Strategy is determined by carrying out an allocation using a quantitative mechanism. Exposure to the Strategy varies each day depending on both the performance of the Strategy and the level of protection of each Class.
The strategy of the Sub-fund is deemed active. The Sub-fund does not have any benchmark for performance comparison purpose. The Strategy will be implemented either according to a Synthetic Replication Policy, through the conclusion of OTC Derivatives or in cash by partially investing directly in the basket of equities that make up the Strategy. The Synthetic Replication Policy implies that the Sub-Fund does not actually hold the underlying securities of the index, but instead relies on OTC Derivatives to partially deliver the performance of the Strategy Index.Investors are able to subscribe or redeem any day which the Paris, London, Frankfurt and Stockholm, exchanges are open during the whole day (excluding Saturdays and Sundays and Luxembourg and French public holidays).
Subscription and redemption requests can be made to the administrative agent before 12.00 pm (CET) at the latest on the relevant valuation day.
Administrative agent: BNP Paribas, Luxembourg Branch, 60, avenue J.F. Kennedy, L-1855 Luxembourg, Grand Duchy of Luxembourg.
Incomes are systematically reinvested.

Intended retail investors

This Product is designed for retail investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear limited capital loss and in this framework expect a protection of their capital whereby, on each Valuation Day, the Net Asset Value per Share of each Class is at least equal to 90% of the Reference Net Asset Value per Share of the Class, as defined in the "Objectives" section. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 4 years.

Practical Information

- Depositary: BNP PARIBAS, Luxembourg Branch

- This key information document is prepared for the aforementioned share class and describes a sub-fund of THEAM QUANT-. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the SICAV. Under the 2010 Law, there is segregated liability between sub-funds, meaning that the assets of the sub-fund will not be available to meet a claim of a creditor or another third-party made against another sub-fund.
- Investors may switch between sub-funds of the SICAV. Please see the prospectus or contact your financial adviser for details.
- Further information about the Product including the latest prospectus, the Articles of Association, key information document, net asset values, latest published prices of share(s), annual report, investment description, may be obtained free of charge from BNP PARIBAS ASSET MANAGEMENT Europe - Service Client - TSA 90007 - 92729 Nanterre cedex, France.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

1 **2** 3 4 5 6 7

Lower risk — Higher risk

The risk indicator assumes you keep the Product for 4 years.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this Product as 2 out of 7, which is a low risk class. The risk category is justified by the investment mainly in stocks and shares, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.
Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Other risks materially relevant to the Product not included in the summary risk indicator:

- Counterparty Risk: this risk is associated with the ability of a counterparty in an Over The Counter financial transaction to fulfil its commitments like payment, delivery and reimbursement.
- Risk linked to the use of financial derivative instruments: these instruments may involve a range of risks that may affect the net asset value.

For additional details regarding the risks, please refer to the prospectus.
Your Product benefits from a protection mechanism whereby, on each Valuation Day, the Net Asset Value per Share of each Class is at least equal to ninety percent (90%) of the Reference Net Asset Value per Share of the Class as defined above. Any amount over this, and any additional return, depends on future market performance and is uncertain.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 4 years Example Investment: EUR 10,000		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment. However, the Product benefits from a protection mechanism described above in the "Objectives" section.		
Stress	**What you might get back after costs**	8,969.68 EUR	9,070.05 EUR
	Average return each year	-10.30%	-2.41%
Unfavourable	**What you might get back after costs**	9,149.45 EUR	9,324.62 EUR
	Average return each year	-8.51%	-1.73%
Moderate	**What you might get back after costs**	9,717.33 EUR	10,197.7 EUR
	Average return each year	-2.83%	0.49%
Favourable	**What you might get back after costs**	10,433.66 EUR	11,865.95 EUR
	Average return each year	4.34%	4.37%

The unfavourable, moderate and favourable scenarios presented represent examples using some of the best and worst performances, as well as the median performance of the Product and/or appropriated benchmark simulated from scenarios drawn from the last 10 years.

WHAT HAPPENS IF BNPP AM IS UNABLE TO PAY OUT?

The SICAV is incorporated as a separate entity distinct from BNPP AM.
In the event BNPP AM would default, the assets of the SICAV, held by a depositary, would not be affected by this default.
In case of the default of the depositary, the risk of financial loss of the SICAV is mitigated by the legal segregation of the assets of the depositary from those of the Product/SICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 4 years
Total Cost	486.24 EUR	1,106.03 EUR
Annual Cost Impact (*)	4.92%	2.71% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.20% before costs and 0.49% after costs.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs	Up to 3.00% of the amount you pay in when entering this investment.	Up to 300 EUR
Exit costs	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	1.70% of the value of your investment per year. The amount is based on past expenses calculated on 31/12/2025.	164.9 EUR
Transaction costs	0.22% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount may vary. This figure is therefore indicative and may be revised upwards or downwards.	21.34 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

In case of conversion, the investors may be charged a maximum fee of 1.50%.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 4 years.
The RHP has been defined and based on the risk and reward profile of the Product.
Investors are able to redeem on a daily basis (on bank business days) and the redemption order will be executed according to the calendar described in the prospectus.
Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product. The Product has a share redemption cap scheme that allows redemption requests to be postponed in exceptional circumstances and in accordance with the conditions set out in the Product's prospectus.

HOW CAN I COMPLAIN?

For any complaints, investors are invited to contact their usual advisor at the establishment that advised them on the Product. They can also contact BNPP AM via its website www.bnpparibas-am.fr (Complaints Management Policy in the footer at the bottom of the page), by sending a registered letter with acknowledgement of receipt to BNP PARIBAS ASSET MANAGEMENT Europe - Client Service - TSA 90007 - 92729 Nanterre CEDEX, France, or by sending an email to amfr.reclamations@bnpparibas.com.
