1) Background to and rationale for the Merger

- ✓ In order to have a coherent and consistent fund range offer, and taking into account the transformation of the overall PARVEST umbrella to the ESG criteria, BNP PARIBAS ASSET MANAGEMENT Luxembourg decides to rationalise its funds range by eliminating duplicates sub-funds and/or sub-funds too small and/or sub-funds having poor performances and/or sub-funds not compliant with the ESG criteria to other umbrella.

In addition, the BNP Paribas L1 Merging Feeder sub-funds are no more considered as relevant strategies for retail clients. In this context, it is in your best interest to continue to benefit from the same investment strategy by investing directly into the Receiving sub-funds.

(1) renamed **BNP Paribas Funds** 30-Aug-2019

The detailed rationale per Sub-fund is described below on point 5).

2) Impact of the Merges on the Merging Shareholders

Please note the following **impacts** of the Merger:

- ✓ The shareholders of the Merging Sub-funds, who do not make use of their shares redemption right explained below on point 7), will become shareholders of the Receiving Sub-funds.
- ✓ For Feeder-Master scheme: Investing directly into the Receiving sub-funds with a cut-off time of D instead of D-1 in the Merging sub-funds will allow to benefit from a shorter time to market.
- ✓ The **Merging Sub-funds will be dissolved** without liquidation by transferring all of their assets and liabilities into the Receiving Sub-funds. The **Merging Sub-funds will cease to exist** at the effective date of the merger.
- ✓ The assets of the Merging Sub-fund which are not compliant with the legal investment restriction and investment policy of the Receiving Sub-fund will be sold before the Merger (in principle five business days before the Merger). Such a rebalancing will occur several days before the Merger depending on the market conditions and in the best interest of the shareholders. The transaction costs associated with this rebalancing will be borne by the Management Company.
- ✓ As in any merger, the operation might involve a risk of performance dilution for the Merging shareholders, especially as consequence of the differences of targeted assets (explained below under point 6) and of the portfolio rebalancing (as explained above).

3) Impact of the Merger on Receiving Shareholders

Please note the following points:

- ✓ The merger will have no impact for the shareholders of the Receiving Sub-funds.

4) Organisation of the exchange of shares

- ✓ If you are shareholder of the **Merging Sub-funds**, you will receive, in the Receiving Sub-fund, a **number of new shares** calculated by multiplying the number of shares they held in the Merging Sub-funds by the **exchange ratio**.
- ✓ The **exchange ratios** will be calculated by dividing the net asset value (NAV) per share of the Merging classes by the NAV per share of the corresponding Receiving classes, based on the valuation of the underlying assets.
When a share class into the Receiving Sub-fund is not active at the date of the calculation ratios, the merger ratio will be calculated by using a value at 100.00 in the Valuation Currency.
The criteria adopted for valuation of the assets and, where applicable, the liabilities on the date for calculating the exchange ratio will be the same as those used for the NAV calculation as described in the chapter “Net Asset Value” of the Book I of the prospectus of the Companies.
- ✓ **Registered shareholders** will receive registered shares.
Bearer shareholders will receive bearer shares.
- ✓ No balancing cash adjustment will be paid for the fraction of the Receiving share attributed beyond the third decimal.

5) Material differences between Merging and Receiving Sub-funds

The **differences** between the Merging and Receiving Sub-funds are the following:
